Subject: TRANSITION ALLOWANCE FOR MONEY FOLLOWS THE PERSON		

V. **POLICY:** People who have resided in an ICF/IID or Nursing Facility typically do not have the resources necessary to establish a home in the community. This policy provides a process for DIDD staff to review requests related to the MFP program which provides individuals enrolled in the MFP program with transition resources in order to establish a home in the community.

VI. **PROCEDURES:**

A. General Guidelines

1. To be eligible to receive a transition allowance, the person supported must be enrolled in MFP.
2. Transition allowances are only approved for the establishment of the person's home following the initial transition out of the ICF/IID or NF. For example, if a person supported chooses to relocate from one supported living home or medical residential home after the initial transition from an ICF/IID or NF, transition allowances shall not be approved for a second time; including a move to a different home or to replace damaged items.
3. Items purchased with transition allowance shall be the property of the person for whom the funds were approved.
4. A person who successfully completes 365-day participation period for MFP and is subsequently re-institutionalized may qualify to participate in MFP again in accordance with TennCare MFP Suspended Status and Re-Enrollment protocol.
5. A person may only elect to participate in MFP prior to the person's transition from the ICF/IID or NF to the community. Once a person has already transitioned to the community, he/she is not eligible to be enrolled in MFP.
6. Final determinations regarding whether a person can enroll into MFP shall be made by TennCare based on information provided by DIDD.
7. Transition allowances are not advance payments. Reimbursement is made following the purchase of qualifying items, subject to receipt of a request for a transition allowance and supporting documentation.

B. Requests for transition allowances shall:

1. Be limited to a one-time grant or award of no more than \$2,500.00, which shall be equal to the total amount of goods purchased. Providers may not request reimbursement above the amount of goods purchased, even if it is under the \$2,500 cap.
2. Include an itemized list of the items to be purchased with the transition allowance and the anticipated price of each item over \$50.00.
3. Less expensive items with an individual item cost of less than \$50.00 may be grouped and listed with an aggregate cost for the group. The aggregate cost shall not exceed \$100.00.
